

PALLADIUM

Your value must be kept precious.

PALLADIUM

PALLADIUM is a top-level premium safe made by 38-year-old Diplomat Safe's high technology and skilled craftsmanship. It is an entirely different luxury safe in design and technology which can't be compared with others. PALLADIUM looks simple but elegant with durability and security. Please experience the beauty of simplicity and security in PALLADIUM.

MARBLE

Marble design panel is an Italian-made Porcelain which has 100% same feeling and look as genuine marble. The harmony of elegant marble and cold feeling metal in **PALLADIUM** will infuse dignity into the space.

WOOD

The 100% German made unique veneer shows a piece of beautiful nature. You can feel warm and soft texture of genuine wood. The wooden panel on the black colored safe will make your own space more dignified.

METAL

Satin black or golden color stainless panel maximizes the simple and elegant beauty of **PALLADIUM**. You may experience an atmosphere of modern design and refinement in metal itself.

DESIGN

Under the Diplomat Safe design philosophy “Safe is Furniture”, **PALLADIUM** is an object designed in motif of high-end furniture. There is no externally exposed handle, electronic lock or any fixture in **PALLADIUM**.

Luxury Furniture Design Safe

Beauty of straight line by high-tech metal-processing skills and aesthetic atmosphere exist in every part of **PALLADIUM**.

Chrome-plated Shiny Active Bolts

12 pcs of shiny active bolts working to four directions (top, bottom and sides) stand out vividly against satin-black colored safe body and frame.

Finger-print Sensor / Touch Panel

Placing tempered-glass touch panel and finger-print sensor on top of the safe, any physical component of locking system is not exposed outside. Ergonomically designed for easy opening and closing.

INTELLIGENCE

Security system integrated with most advanced security and IoT communication technology is strong enough to protect your valuables in **PALLADIUM**.

IoT System

The IoT system monitors all the states of user's safes such as opening/closing, impact, inside temperature, and humidity and transfers to user's mobile phone in real time.

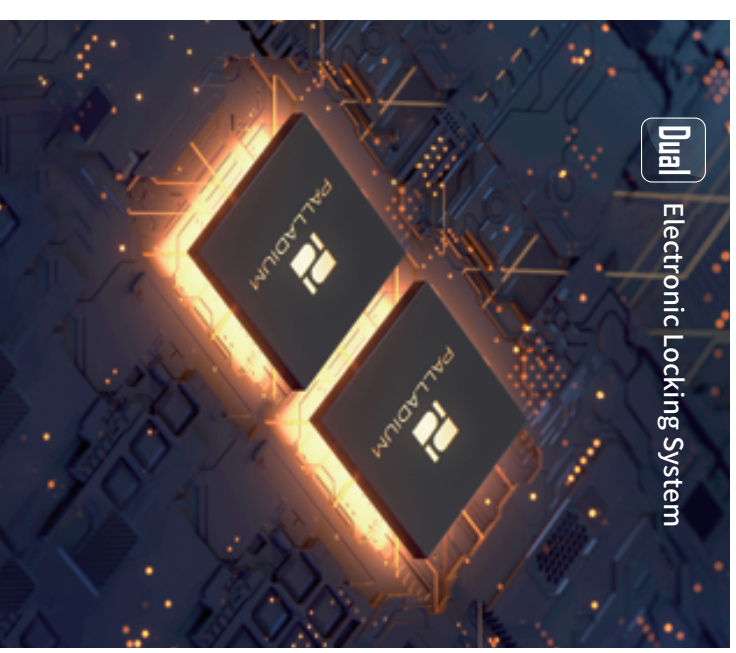

Finger-print Authentication System

32 different finger-prints can be registered in the system. The capacitive finger-print sensor offers excellent authentication performance and can be used together with password system.

Dual Electronic Locking System

There are two kinds of independent electronic locking system in **PALLADIUM**. If the main-system doesn't work properly, the sub-system operates and controls the safes.

SECURITY

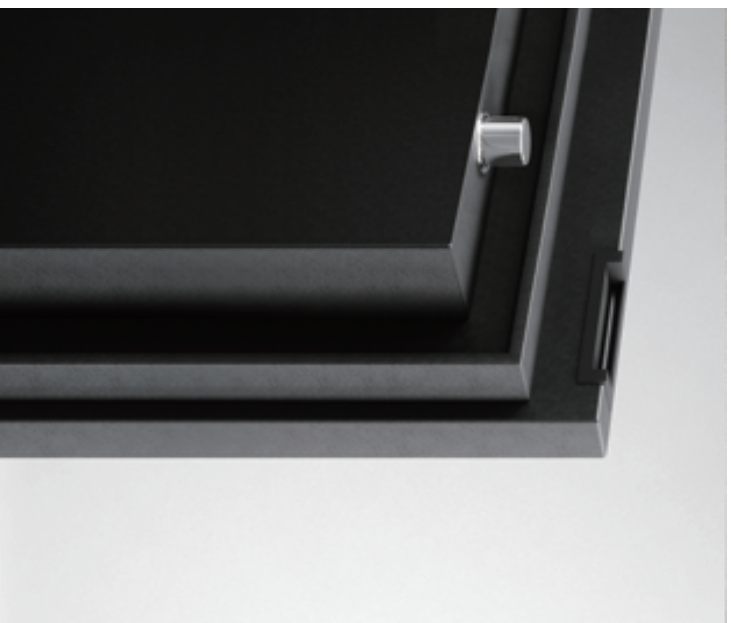

Three-fold steel frames with reinforcement plates and 12pcs of 32mm diameter active bolts protect the safe against outside attack.

In addition, **PALLADIUM** proves 60 min fire resistance test under KS(Korean Industrial Standard) certification.

Weight	Diameter of active-bolt	Number of active-bolt	Fire Class
255 kg	32 mm	12 pcs	60 min

Structure of three-fold door frame

140mm thick 3-layer door frame keeps your valuables safe.

4-way 12pcs of locking bolts

12pcs of 32mm diameter active bolts tightly hold the safe door.

Relocking device and Anti-drill plate
are equipped against outside attacks.

60 min. Fire Resistance

Insulation keeps the inside matters safe from high heat.

Alert System

When the safe is impacted from outside or tilted, inside alarm alerts and the alert is transferred to user's mobile in real time.

CONVENIENCE

You can efficiently keep your various kinds of valuables in the drawer and on the shelves of **PALLADIUM**.

In addition, voice guidance system gives more convenience.

Practical Interior

3-step slide rail drawer and tempered-glass shelf help the interior more spacious in use.

6pcs of high luminance LED

When a safe opened, 6-LED lights turn on.

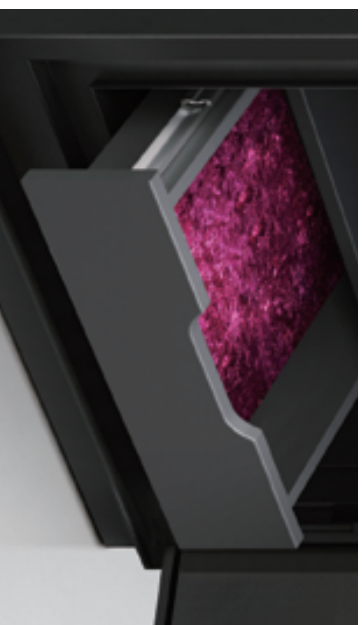

Tempered-Glass shelf

5mm thick tempered-glass shelf screened with Palladium Logo installed and adjustable in height.

Inside Drawer

Drawer works smoothly using 3 section pull out slide rail.

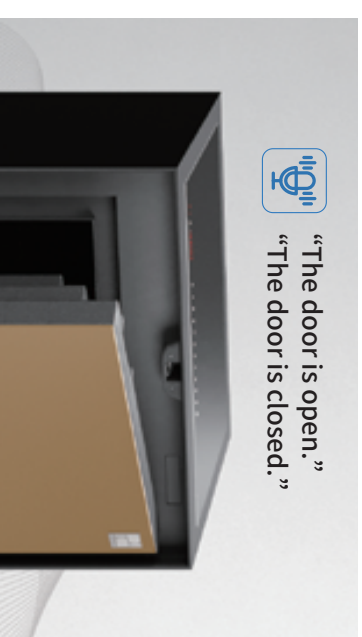

Built-in handle

Handle helps to open and close door easily.

Voice Guidance

It help to use more conveniently.
